Rapyd

Dear Sir,

RE: Applying for a software development internship

I am Kabatesi Gerardine, a software developer with skills in both back-end and front-end development. I am writing to apply for a software development internship at Rapyd. I admire Rapyd helps customers to pay global by using Rapyd Pre-Built Checkout to host their payment which is fast and easy to transfer and accept payment international. With the ability to accept cards, bank transfers, e-wallets and cash, plus compliance support and fraud monitoring, it's the business complete payment solution.

Using my skills in Kotlin such as flow control and Integrating restful API, I have been able to work on a medical application that connects doctors to patients in a convenient way. It would be a privilege to contribute to the continuous growth of Rapyd. I would appreciate it if you took the time to review my resume. Looking forward to hearing from you. My email is gerardinekaba@gmail.com phone number is +250780030142

Yours sincerely,
Kabatesi Gerardine.
