Dear Sir,

RE: Applying for a software development internship

I am Kabatesi Gerardine, a software developer with skills in both back-end and front-end development. I am writing to apply for a software development internship at Ajua limited. I admire that Ajua 360's digital platform gives businesses a 360-degree view of their customers enabling them to capture market trends and insights to deliver more personalized experiences, improve their operational efficiency and increase their revenues.

Using my skills in Kotlin such as flow control and Integrating restful API, I have been able to work on a medical application that connects doctors to patients in a convenient way. It would be a privilege to contribute to the continuous growth of Ajua Limited.

I would appreciate it if you took the time to review my resume. Looking forward to hearing from you . My my email is gerardinekaba@gmail.com phone number is +250780030142

Yours sincerely,
Kabatesi Gerardine.
