Dear Sir,

RE: Applying for a software development internship

I am Kabatesi Gerardine, a software developer with skills in both back-end and front-end development. I am writing to apply for a software development internship at LokDon, llc. I admire that LokDon \$ App deliver service such as AWS, which enables file encryption and sharing on your aws account and sCloud that file encryption and sharing on your cloud accounts like Dropbox and Google Drive.

Using my skills in Kotlin such as flow control and Integrating restful API, I have been able to work on a medical application that connects doctors to patients in a convenient way. It would be a privilege to contribute to the continuous growth of LokDon, llc.

I would appreciate it if you took the time to review my resume. Looking forward to hearing from you . My my email is gerardinekaba@gmail.com phone number is +250780030142

Yours sincerely,
Kabatesi Gerardine.
