Dear Sir,

## RE: Applying for a software development internship

I am Kabatesi Gerardine, a software developer with skills in both back-end and front-end development. I am writing to apply for a software development internship at Cellulant limited. I admire that your company allows businesses to deliver a seamless payment experience to their customers using Tingg as a one-stop digital payment platform. I resonate with your mission that aims to digitise payment for Africa's largest economies.

Using my skills in Kotlin such as flow control and Integrating restful API, I have been able to work on a medical application that connects doctors to patients in a convenient way. It would be a privilege to contribute to the continuous growth of Cellulant.

I would appreciate it if you took the time to review my resume. Looking forward to hearing from you . My my email is <a href="mailto:gerardinekaba@gmail.com">gerardinekaba@gmail.com</a> phone number is +250780030142

Yours sincerely,

Kabatesi Gerardine.
